

1 about which there had been some discussion on the floor, the
2 Committee on Style stated I think precisely the same thing.
3 We believe that it is somewhat more clear than it was when
4 it came to us from the floor because we have slightly
5 regrouped the provisions which had been in 8.01-B and we have
6 made sure -- as instructed from the floor by the Committee of
7 the Whole, we have made certain that it complied in all
8 respects with the provisions in Article 7, Section 7, on
9 5, 6, and 7.

10 In 6.03 on assessments there is a change in
11 wording with respect to property devoted to agricultural
12 uses as prescribed by law changed to agricultural property
13 as defined by the General Assembly by law and we have
14 checked it with the committee and members of the committee,
15 and I think I am correctly quoting members of the committee
16 and the staff in saying that there is no change -- I give
17 two quotations, one, that there is no change in the meaning
18 of the words and, two, I think I am correct in saying that
19 one of the members of the committee said it is better worded.
20 But in either case there is no change in substance we have
21 been assured as we asked the question.
